Tazdan investor pack

Everything a prospective investor needs to evaluate Tazdan: the business, the numbers, the plan, the product in motion and the evidence behind it.

Investor pack	Date	Status
Contents and guide	October 2026	Confidential · for discussion

Prepared by the founder of Tazdan for prospective investors. This document is not an offer to sell or a solicitation to buy securities. Forecasts are planning estimates, not promises. Licences, banking partners and live payment rails are not yet in place; status labels throughout show what is built, what awaits a partner, and what is switched off in production.

CONTENTS

What is in this pack

FOLDER	FILE	WHAT IT IS	SIZE

KEY FACTS

The pack on one page

$18M
Proposed investment for 40%: $10M new capital, $8M founder shares

$45M
Implied post-money equity value

$3.35M
Base-case revenue in year 5 (growth case $11.13M)

370
Server tests passing; 82 mobile screens; 32-page Control Cockpit

How to read it

In 15 minutes

Watch the demo video, then read the investor presentation.

In an hour

Add the memorandum and the financial model summary.

For diligence

Work through the Excel model, then the corporate, revenue, growth, launch and evidence documents.

Status labels used throughout

Built	Works end to end in the codebase and needs no outside activation (20 of the 29 features in the video).
Awaits partner	Complete, but needs a bank, a licence or a payout partner before real customers can use it (5 features).
Off in production	Built, but the platform refuses it in production until its conditions are met (4 features).
Planned	Work outside the code: licences, partner contracts, independent testing.

Where things stand, in one paragraph

Tazdan's software is built and tested against a real database. It has not yet served a real customer. The investment funds the steps between the two: a licence route or authorised partner, a partner bank with safeguarded accounts, payout partners, independent security testing, an opening reconciliation, and the team to run it. Nothing goes live until nine release gates are signed, and the software enforces this.

Important notice

This pack is confidential and was prepared by the founder of Tazdan for prospective investors. It is not an offer to sell, or a solicitation of an offer to buy, any securities. Forecasts, prices and timetables are planning estimates based on stated assumptions; they are not promises, and actual results may differ materially. No licence, banking relationship, payout partner, customer contract or revenue is represented as existing unless stated. The proposed terms are the founder's opening proposal, non-binding and subject to diligence, documentation, and review of the investing parties and their funds by the receiving bank. The product video uses a fictional customer and data. Please do not forward this pack without the founder's consent.
